## DATASHEET - ATO-20-1-IA/H

Position switch, 2N/O, wide, IP65\_x, actuating rod

Part no. ATO-20-1-IA/H Catalog No. 066919 Atlernate Catalog ATO-20-1-IA/H

**Delivery program** 

| Delivery program                               |    |                                     |
|--|----|-------------------------------------|
| Basic function                                 |    | Position switches                   |
| Part group reference                           |    | AT0                                 |
| Product range                                  |    | Actuating rod                       |
| Degree of Protection                           |    | IP65                                |
| Features                                       |    | Complete unit                       |
| Ambient temperature                            | °C | -25 - +70                           |
| Approval                                       |    | totally insulated                   |
| Contacts                                       |    |                                     |
| N/O = Normally open                            |    | 2 N/O                               |
| Contact sequence                               |    | $0 - \frac{13}{14} = \frac{13}{24}$ |
| Contact travel = Contact closed = Contact open |    | 13-14<br>23-24<br>0° 8° 54°         |
| Colour   |    |                                     |
| Enclosure covers                               |    | Grey                                |
| Enclosure covers                               |    |                                     |
| Housing  |    | Insulated material                  |
| Connection type                                |    | Screw terminal                      |

**Notes** The operating head can be rotated at 90° intervals to adapt to the specified approach direction. For degree of protection IP65, use V-M20 (206910) cable glands with connecting thread of max. 9 mm length.

## **Design verification as per IEC/EN 61439**

Actuating torque of rotary drives

Notes

Max. operating speed with DIN cam

| echnical data for design verification  |                   |    |  |
|--|-------------------|----|--|
| Rated operational current for specified heat dissipation   | In                | Α  | 6  |
| Heat dissipation per pole, current-dependent   | P <sub>vid</sub>  | W  | 0.13   |
| Equipment heat dissipation, current-dependent  | P <sub>vid</sub>  | W  | 0  |
| Static heat dissipation, non-current-dependent   | $P_{vs}$          | W  | 0  |
| Heat dissipation capacity  | P <sub>diss</sub> | W  | 0  |
| Operating ambient temperature min.   |                   | °C | -25  |
| Operating ambient temperature max.   |                   | °C | 70   |
| C/EN 61439 design verification   |                   |    |  |
| 10.2 Strength of materials and parts   |                   |    |  |
| 10.2.2 Corrosion resistance  |                   |    | Meets the product standard's requirements.                         |
| 10.2.3.1 Verification of thermal stability of enclosures   |                   |    | Meets the product standard's requirements.                         |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat   |                   |    | Meets the product standard's requirements.                         |
| $10.2.3.3\mbox{Verification}$ of resistance of insulating materials to abnormal heat and fire due to internal electric effects |                   |    | Meets the product standard's requirements.                         |
| 10.2.4 Resistance to ultra-violet (UV) radiation   |                   |    | Meets the product standard's requirements.                         |
| 10.2.5 Lifting   |                   |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.2.6 Mechanical impact   |                   |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.2.7 Inscriptions  |                   |    | Meets the product standard's requirements.                         |
| 10.3 Degree of protection of ASSEMBLIES  |                   |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.4 Clearances and creepage distances   |                   |    | Meets the product standard's requirements.                         |
