DATASHEET - NZM4-XU220-250DC-PI

Undervoltage release for NZM4, 208-250DC, Push-in terminals

Part no. NZM4-XU220-250DC-PI Catalog No. 189773

Delivery program

Accessories Accessories Accessories Standard/Approval Construction size Description Connection type Auxiliary contacts Rated control voltage Undervoltage release Undervoltage releases Undervoltage releases UL/CSA, IEC NZM4 Non-delayed disconnection of NZM circuit-breaker or N switch-disconnector when the control voltage sinks below 35 – 70% US. For use with emergency-stop devices in connection with an emergency-stop button. When the under-voltage trip is switched off, accidental contact with the circuit breaker's primary contacts is prevented when switched on. Undervoltage release modules cannot be installed simultaneously with early-make contact NZMXAL or relais modules NZMX2A With push in terminal without auxiliary contact without auxiliary contact	Delivery program			
Accessories Standard/Approval Construction size Description Description Mon-delayed disconnection of NZM circuit-breaker or N switch-disconnector when the control voltage sinks below 35 – 70% US. For use with emergency-stop devices in connection with an emergency-stop button. When the under-voltage trip is switched off, accidental contact with the circuit breaker's primary contacts is prevented when switched on. Undervoltage release modules cannot be installed simultaneously with early-make contact NZMXAIIV, shunt release NZMXA or relais modules NZMX2A Connection type Auxiliary contacts Rated control voltage Us V 220 - 250 V DC	Product range			Accessories
Standard/Approval Construction size Non-delayed disconnection of NZM circuit-breaker or N switch-disconnector when the control voltage sinks below 35 – 70% US. For use with emergency-stop devices in connection with an emergency-stop button. When the under-voltage trip is switched off, accidental contact with the circuit breaker's primary contacts is prevented when switched on. Undervoltage release modules cannot be installed simultaneously with early-make contact NZMXAIIV, shunt release NZMXA or relais modules NZMX2A Connection type Auxiliary contacts Rated control voltage Us V 220 - 250 V DC	Accessories			Undervoltage release
Construction size Description Non-delayed disconnection of NZM circuit-breaker or N switch-disconnector when the control voltage sinks below 35 – 70% US. For use with emergency-stop devices in connection with an emergency-stop button. When the under-voltage trip is switched off, accidental contact with the circuit breaker's primary contacts is prevented when switched on. Undervoltage release modules cannot be installed simultaneously with early-make contact NZMXHIV, shunt release NZMXA or relais modules NZMX2A Connection type Auxiliary contacts Rated control voltage Us V 220 - 250 V DC	Accessories			Undervoltage releases
Description Non-delayed disconnection of NZM circuit-breaker or N switch-disconnector when the control voltage sinks below 35 – 70% US. For use with emergency-stop devices in connection with an emergency-stop button. When the under-voltage trip is switched off, accidental contact with the circuit breaker's primary contacts is prevented when switched on. Undervoltage release modules cannot be installed simultaneously with early-make contact NZMXHIV, shunt release NZMXA or relais modules NZMX2A Connection type Auxiliary contacts Rated control voltage Us V 220 - 250 V DC	Standard/Approval			UL/CSA, IEC
when the control voltage sinks below 35 – 70% US. For use with emergency-stop devices in connection with an emergency-stop button. When the under-voltage trip is switched off, accidental contact with the circuit breaker's primary contacts is prevented when switched on. Undervoltage release modules cannot be installed simultaneously with early-make contact NZMXHIV, shunt release NZMXA or relais modules NZMX2A Connection type Auxiliary contacts Rated control voltage Us V 220 - 250 V DC	Construction size			NZM4
Auxiliary contacts without auxiliary contact Rated control voltage U _s V 220 - 250 V DC	Description			when the control voltage sinks below 35 – 70% US. For use with emergency-stop devices in connection with an emergency-stop button. When the under-voltage trip is switched off, accidental contact with the circuit breaker's primary contacts is prevented when switched on. Undervoltage release modules cannot be installed simultaneously with early-make
Rated control voltage Us V 220 - 250 V DC	Connection type			with push in terminal
	Auxiliary contacts			without auxiliary contact
For use with NZM4(-4), N(S)4(-4)	Rated control voltage	Us	V	220 - 250 V DC
	For use with			NZM4(-4), N(S)4(-4)

Technical data Undervoltage release

Rated control voltage	U_s	V	
Rated control voltage	U_{s}	V	220 - 250 V DC

Design verification as per IEC/EN 61439

200:g.: 10:::::0a:::0:::00	
IEC/EN 61439 design verification	
10.2 Strength of materials and parts	
10.2.2 Corrosion resistance	Meets the product standard's requirements.
10.2.3.1 Verification of thermal stability of enclosures	Meets the product standard's requirements.
10.2.3.2 Verification of resistance of insulating materials to normal heat	Meets the product standard's requirements.
10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects	Meets the product standard's requirements.
10.2.4 Resistance to ultra-violet (UV) radiation	Meets the product standard's requirements.
10.2.5 Lifting	Does not apply, since the entire switchgear needs to be evaluated.
10.2.6 Mechanical impact	Does not apply, since the entire switchgear needs to be evaluated.
10.2.7 Inscriptions	Meets the product standard's requirements.
10.3 Degree of protection of ASSEMBLIES	Does not apply, since the entire switchgear needs to be evaluated.
10.4 Clearances and creepage distances	Meets the product standard's requirements.
10.5 Protection against electric shock	Does not apply, since the entire switchgear needs to be evaluated.
10.6 Incorporation of switching devices and components	Does not apply, since the entire switchgear needs to be evaluated.
10.7 Internal electrical circuits and connections	Is the panel builder's responsibility.
10.8 Connections for external conductors	Is the panel builder's responsibility.
10.9 Insulation properties	
10.9.2 Power-frequency electric strength	Is the panel builder's responsibility.
10.9.3 Impulse withstand voltage	Is the panel builder's responsibility.
10.9.4 Testing of enclosures made of insulating material	Is the panel builder's responsibility.

10.10 Temperature rise	The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices.
10.11 Short-circuit rating	Is the panel builder's responsibility. The specifications for the switchgear must be observed.
10.12 Electromagnetic compatibility	Is the panel builder's responsibility. The specifications for the switchgear must be observed.
10.13 Mechanical function	The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.

Technical data ETIM 8.0

Low-voltage industrial components (EG000017) / Under voltage coil (EC001022)			
Electric engineering, automation, process control engineering / Low-voltage switch technology / Circuit breaker (LV < 1 kV) / Undervoltage trip (ecl@ss10.0.1-27-37-04-17 [AKF015013])			
Rated control supply voltage Us at AC 50HZ	V	0 - 0	
Rated control supply voltage Us at AC 60HZ	V	0 - 0	
Rated control supply voltage Us at DC	V	220 - 250	
Voltage type for actuating		AC	
Type of electric connection		Screw connection	
Number of contacts as normally open contact		0	
Number of contacts as normally closed contact		0	
Number of contacts as change-over contact		0	
Delayed		No	
Suitable for power circuit breaker		No	
Suitable for off-load switch		Yes	
Suitable for motor safety switch		Yes	
Suitable for overload relay		No	

Approvals

Product Standards	UL489; CSA-C22.2 No. 5-09; IEC60947, CE marking
UL File No.	E140305
UL Category Control No.	DIHS
CSA File No.	22086
CSA Class No.	1437-01
North America Certification	UL listed, CSA certified
